

When do I need to make a report ?

If there is an accident or incident connected with work your employer must notify RIDDOR (or an the enforcing authority) without delay (eg by telephone) and ensure that a completed accident report form (F2508) or report of a disease (F2508A) has been sent within TEN DAYS.

Reportable diseases include

- certain poisonings
- some skin diseases such as occupational dermatitis, skin cancer, chrome ulcer, oil folliculitis/acne
- lung diseases including occupational asthma, farmer's lung, pneumoconiosis, asbestosis, mesothelioma
- infections such as leptospirosis, hepatitis, tuberculosis, anthrax, legionellosis and tetanus
- other conditions such as: occupational cancer, certain musculoskeletal disorders, decompression illness and hand-arm vibration syndrome.
