INTRODUCTION

Kent's Rural and Community Housing Enabling service (RACE) undertook a local Housing Needs Survey in the Swanley Town Council area which covers the electoral Wards of Swanley Christchurch and Swanley Village, Swanley St Mary's and Swanley White Oak. The survey was undertaken as part of Sevenoaks District Council's 5 year district wide programme of local housing needs surveys being carried out by RACE.

Housing Needs Surveys investigate the affordable housing needs of people who live in or have close ties to a parish, town or rural area and provide an independent report of that need, using a transparent and robust methodology. In addition they investigate the needs of older households of any tenure needing to downsize or move to more suitable housing for their needs.

The Swanley Housing Needs Surveys is valid for 5 years, to October 2028.

BACKGROUND INFORMATION

The 2021 '[Parish Councillors' Guide to Rural Affordable Housing](#)' states that 'Across the country there is a lack of affordable housing to rent or buy in many villages, in some there is none at all. This causes hardship for people across the generations, young people just starting out on an independent life, families trying to provide for their children and older people who have lived in the village for most of their lives but whose growing frailty means they can no longer manage in their current home.' Due to high property prices within the Sevenoaks District, the same challenges arise in more urban settlements and towns.

The Kent Rural Housing Protocol '[A Guide to Developing Affordable Homes in Rural Communities](#)' states that 'Within the County of Kent, most land (85%) is classed as "rural" and over 40% of businesses in Kent are based in rural areas. KHG recognise that provision of affordable housing is vital to ensure that communities continue to thrive and prosper.'

Small developments of local needs housing can provide affordable homes for local people, thereby enabling them to stay in their community, benefit from family and friends' networks and contribute to local life. This can make a real difference to the sustainability of communities and the vitality of local services and amenities.

The housing needs of older people has been a subject of concern given the growing numbers in that age group whose needs are not being met by the market. A nine month enquiry starting in 2017 on Housing and Care for Older People concluded in their report¹ that 'policy makers must recognise the growing housing needs of older people living in the countryside. It recommends that Local Planning Authorities ensure provision of new homes for older people, noting the value of both the building of small village developments "perhaps six bungalows on an unused scrap of land" or larger scale retirement schemes in towns close by.'

RACE is an independent service for Kent, delivered through the [Kent Housing Group](#) and is supported by Local Authorities across Kent and Medway, including Sevenoaks District Council. RACE's Rural Housing Enablers (RHE) will undertake a housing needs survey, analyse the results and where appropriate, help identify potential suitable sites for the development of new local needs housing, ie Rural Exceptions Sites, or to secure a proportion of the affordable housing to be provided on larger sites to meet the needs of local people, ie Local Lettings Plans.

¹ [Rural Housing for an Ageing Population](#): Preserving Independence. Happi 4- The Rural HAPPI Inquiry. April 2018. Jeremy Porteus

If new local needs housing is to be developed on a Rural Exceptions Site, a partnership will be established between the Parish and or Town Council, the preferred housing provider, eg Housing Association, and the Local Authority. Proposals for new local needs housing will be developed and the community consulted. The independent role of the RHE helps to ensure any eventual local needs housing scheme proceeds smoothly and for the benefit of the community.

HOUSING IN SWANLEY

The Census 2021 tells us 64% of households in the Swanley area are owner occupiers, 26% live in social housing and 10% live in private rented housing or are living rent free. The housing stock comprises 18% flats and 82% houses or bungalows.

There are a total of 1,840 social housing properties in the Swanley area, with the majority owned by West Kent Housing Association. This follows the transfer of the Sevenoaks Council housing stock in 1989. Social housing is let in accordance with the Sevenoaks District Allocation Policy or direct by the landlord Housing Association. There are currently no local needs housing schemes in the area where priority would be given to those with a strong local connection to Swanley. This means social housing vacancies are allocated to those with a connection to the Sevenoaks District, ie the new tenant is unlikely to necessarily have a local connection to Swanley.

High property prices mean that some local people are unable to afford a home in Swanley. At the time of writing the report the cheapest 1 bedroom property for sale was a maisonette for £180,000; for a first time buyer to afford this property an estimated 10% deposit of £18,000 would be required along with an income of approximately £36,000 based on a mortgage of 4.5 x income. The cheapest 2 bedroom property available were an apartment for £175,000; a deposit of £17,500 and an income £35,000 would be required. There was a 2 bedroom apartment for £250,000 which would require a deposit of £25,000 and income of £50,000. The cheapest available private rented sector property was a 1 bedroom apartment for £995 per calendar month; an income of approximately £39,800 would be required to afford this property (affordability is based on rent being no more than 30% gross income). There were no 2 bedroom properties available to rent. The cheapest 3 bedroom was a detached house for £2,250 per calendar month which would require an income of £90,000 to be affordable.

SURVEY METHODOLOGY

An A5 postcard providing information and online links for completion of the survey was posted to every household in Swanley in October 2023. Only residents with a housing need were asked to respond; options were provided for those unable to use the online method. 7,569 surveys were distributed with 38 completed surveys returned.

SUMMARY

Of the 38 returns, a need for up to 32 affordable homes, for the following local households was identified:

- 7 single people
- 5 couples without children
- 20 families with children
- 7 of the 32 households include older people
- 27 of the households live in Swanley and 5 live outside and have indicated they have a local connection to Swanley.

In addition to the above, there was a requirement for 2 properties for older homeowners

ANALYSIS AND RESULTS

38 surveys were completed. 3 surveys were disallowed for the following reasons:

1 x incomplete survey so an assessment could not be completed.

2 x did not want to stay in Swanley.

1 x no local connection to Swanley indicated.

Identified need for Affordable Housing

Total Number of Affordable Homes Required	32
Respondent Current Location	27 x live in Swanley. 5 x live outside Swanley
Respondent Current Housing	13 x private rented sector 10 x living with relatives 4 x renting from Housing Association 1 x Shared Ownership 4 x other (Sofa surfing. Sofa surfing and living in a tent. Living in temporary accommodation. Lodging with people)
Household Composition	7 x single people 5 x couples 20 x families

Type of housing required (more than one choice allowed)	1 x flat 1 x house 1 x bungalow 1 x cohousing for older people

ADDITIONAL INDICATION OF LOCAL HOUSING NEEDS

Information obtained from the Sevenoaks District Housing Register shows that of the 891 active applicants currently registered, 222 have indicated they have a local connection to Swanley, requiring the following social housing: 62 x 1 bedroom, 89 x 2 bedrooms, 55 x 3 bedroom and 16 x 4 bedrooms.

CONCLUSION

The Swanley Housing Needs Survey demonstrates that at least **32 new affordable homes** are required to meet the needs of local people. From the responses received it demonstrates at least 2 open market properties for older homeowners wanting to downsize or move to more suitable housing, are required.

The housing needs survey is an important source of evidence in measuring the housing needs of local people. Complementary indicators of housing need, including data from the Sevenoaks District Housing Register, verified local registrations of interest held by partner Housing Associations and data captured through ongoing engagement within the local community, can also provide suitable robust evidence. The Housing Needs Survey together with complementary indicators, ensure local housing needs data remains valid over a five-year period. All such evidence may be used to support the delivery of new affordable homes to meet the needs of local people.

SWANLEY HOUSING NEEDS SURVEY

The Rural and Community Housing Enabling service (RACE) is working with Swanley Town Council and Sevenoaks District Council to establish whether there is a need for affordable housing and/or housing for older residents including current homeowners, in Swanley.

It is widely recognised that people living on low or even average incomes can face real difficulties trying to find a secure and affordable home in the place they live and/or work in. That's why RACE are working with Swanley Town Council to understand what the local housing need is and how local people can be supported to stay close to their support networks, work or education. We also know that some older people, including homeowners, can struggle to find alternative housing that better suits their needs whilst enabling them to remain in their community.

This survey is designed to see if such housing is needed in Swanley for people with strong local connections (the local connection criteria can be seen at Q5).

Details on how to return the survey are at the end of this form.

If you or anyone in your household has a housing need, even if they've had to move away to find housing elsewhere, please complete this survey by **15th November 2023**. Households might be single people, couples or families. It is only necessary to complete this survey if you feel you are in housing need. Please complete one survey per household in housing need. The survey should take around 15 mins to complete.

The findings of this survey will be produced in a report and published on the Swanley Town Council website in the new year at www.swanleytowncouncil.gov.uk. To find out more about RACE go to www.kenthousinggroup.org.uk/race. If you are unable to access these websites but would like to know more, please use the contact details at the end of this form.
